## **Summer 2012**

Welcome to the The Sewing Salon Summer Camp 2011. In these Camps for children, ages 8 and up, we embrace the exciting world of fashion design. Students will cultivate many fashion related design skills including fashion design, sewing and creative thinking. We will explore numerous avenues of inspiration through illustration, by making design boards and will delve into the technical world of hands-on garment construction with hand and machine sewing.

Each day will begin with a short demonstration and practice of a sewing or design technique, followed by work on the sewing project. We will break for lunch and eat on-site, either in our workspace or on the patio outside (please provide your child with a bag lunch). The afternoon will be spent sewing and refining our new designing skills. In the afternoon on Friday we will have an informal fashion show where students model their recent creations. Let's get started and have some fun!

Each student will need to come prepared with a sewing box and appropriate supplies. They will need a store bought pattern of a simple design and fabric to create their project.
